

PLACEMENT BROCHURE

BKBIET
P I L A N I

Syt. B. K. Birla,
Chairman-SKCT, Kolkata

"My object of life was not solely the pursuit of industry, business and trade. For a rich and full life, interest and involvement in Fine Arts, Music, Literature, Social, Cultural and Spiritual activities are essential."

Dr. (Mrs.) Sarala Birla,
Trustee-SKCT, Kolkata

"Knowledge for the sake of knowledge without benefiting fellow beings is a dead end, and only leads to the blind alley of frustration. Education is a meaningless ritual, unless it moulds the character of students and imparts in them a strong sense of values."

Shri Basant Kumar Birla, a Great Visionary, Industrialist and equally great Philanthropist, is the motivating force behind BKBIET, Pilani. BKBIET is under the Shree Krishnarpan Charity Trust, presently chaired by Syt. B. K. Birla.

Shree Krishnarpan Charity Trust, SKCT, was founded by Padma Vibhushan Late Shri G.D. Birla with Dr. S. Radhakrishnan, Ms. Maniben Patel and other great personalities of that time as founder Trustees.

Rendezvous With The Future & The Futuristic

Dr. P.S. Bhatnagar
(Director)

THE TUTORIAL PARADIGM

It's so well said, "One Small Step For Man, One Giant Leap For The Mankind." This has really held true for Pilani, a petite place just over a hundred years back, that was nothing but a tiny drop in a vast ocean, which always struggled for its existence. But the scenario changed and then Pilani set a mark on the grounds of Education & Technology.

The first ever educational institute here, the Pathshala was initiated by Raja Baldevdasji. Afterwards, Padmavibhushan G.D.Birla elevated the Pathshala to a Secondary School & further transformed it into a Degree College. Simultaneously, the other cities of the Shekhawati belt, also began to enjoy the benefits of expansion of education & learning. The vision behind this was to increase the literacy rate of this backward area. The task left undone by Shri.G.D.Birla, was accomplished by the coming generations of the Birlas. This laid the foundation for Pilani to be recognized as a Knowledge-City on the global map. Today Pilani is proud host of its three residential schools, colleges and the world renowned Deemed University, the Birla Institute of Technology & Science.

Various Technological & Vocational Training institutes attribute their evolution & nurturing to India's leading business Tycoons, under different names. Under the benefaction of Syt.B.K.Birla & Dr.(Smt.) Sarala Birla, an ITI was started, which developed into a Poly-technique. Later these two merged to become BTTI. The other venture, BKBIET is one of those dreams which has successfully materialized under the patronage of Syt. & Smt.Birla. This dream, became a reality with the strong efforts of Dr. P.S.Bhatnagar, who finally created a launch-pad for the BKBIET to acquire its shape, during the year 2007-2008. He firmly believes in the fact that, "It's so hard when I have to, and so easy when I want to." This never-say-die attitude of Dr. Bhatnagar, made the things transpire in such a way that today BKBIET is successfully imparting Skills, Attitude & Education to several students from every nook and corner.

BKBIET has attained a highly reputed place for itself because it has become an integral part of the educational process today, which is contributing towards the 360 degree development of the students, with the help of high quality methods, means & mentors, not leaving any stone unturned to grab even the tiniest of opportunities and this is due to the belief that Small Opportunities Are Often The Beginning Of Great Enterprises...!!!

THE INSTITUTE

B.K. Birla Institute of Engineering & Technology, Pilani was founded by Shree Krishnarpan Charity Trust as its technical wing under the Chairmanship of Basant Kumar Birla in the year 2007. The institute is approved by AICTE (F.No.06/01/RAJ/ENGG/2007/51 dated 18.06.2007) and is affiliated to Rajasthan Technical University, Kota for undergraduate programmes in Computer Science & Engineering, Electronics & Communication Engineering, Electrical Engineering and Information Technology with 60 intake in each branch. The institute has dedicated faculty, state-of-art Electronics, Communication and Electrical laboratories, Computer Centers, Wi-Fi Campus, modern infrastructure, medical facility.

BKBIET has number of well equipped laboratories which include Robotics Lab, PCB Lab, Communication Lab, Microcontroller & Microprocessor Lab, Computer Centres of excellence and state-of-art facilities.

At Aditya Birla Training and Research Centre (ABTRC), students gain valuable experience in the forefront of scientific research through project type courses, seminars and workshops. This is also an ideal centre for their Internship programme as per RTU norms.

The most remarkable feature of BKBIET is the very well equipped Library with international standard journals and the latest editions of books on science and technology which is fully air conditioned. Institute Library with two reading rooms and an issue section has a rich collection of books and journals along with reference books on all the related courses. It is fully automated and well stocked with more than 15000 volumes covering about 1400 titles of books, National & International Journals & Periodicals.

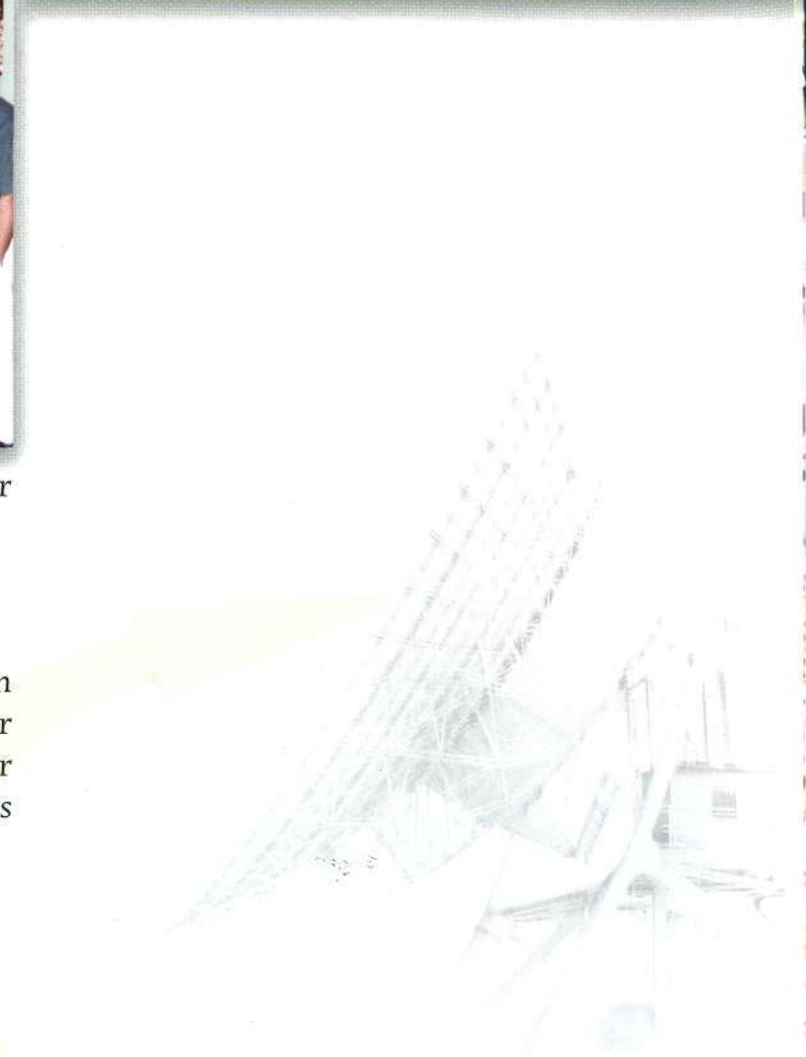

The education process at BKBIET, Pilani aims at providing a holistic learning experience to its students under the norms set by Rajasthan Technical University, Kota. University model of education enriches their knowledge in various academic disciplines, the ambience at the culturally vibrant campus and the plenty of opportunities they get both inside and outside their classrooms enable them to unveil their creative potential, sharpen their analytical soft skills and mould them into desirable personalities.

International Collaboration:

The culturally vibrant campus atmosphere reflects the country. The Institute has strong students exchange collaboration with various Universities of France, Switzerland, Germany, Canada, Portugal, Thailand etc. Number of students are participating with these Universities under the collaboration. More than twenty percent students had been sent and are being sent to these international universities for two or three months Internship programmes. More than twenty five students completed internship in our institute under students exchange programme from French and Thailand universities.

French Language Course:

The French Language Course from the session 2007-08 is conducted by the institute in collaboration with the French Embassy. Ms. Caroline Antunes was the first French tutor deployed by the French Embassy after a rigorous selection procedure. Similarly every year French Embassy is deputing a French Tutor for the purpose. More than 200 students already got benefited from this course from our institute.

ADMISSION PROCESS

About 280 students with different disciplines like Electronics & Communication Engineering, Computer Science & Engineering, Information Technology and Electrical Engineering will avail campus placement each year. For these students, the admission process is carried out in three categories: RPET, AIEE and Management. 15% of the sanctioned intake is filled by Management, 15% by AIEEE aspirants and the rest 70% by RPET. Additional 10% students are admitted in the first year through Tuition Fee Waiver scheme. To apply under Management quota, students should have an average of 65% and above in the subjects Physics, Chemistry, Mathematics and English. Students with only high merit are considered for admission under Management Quota. Students appearing in RPET and AIEEE examinations are taken as per the lists separately finalized by the Board of Technical Education, Rajasthan (BTER), Jodhpur (Web site: www.techedu.rajasthan.gov.in). After filling the option form, the students should wait for the announcement for their selection and proceed accordingly to get the admission in the Institute.

Mobile: 09414062512
Fax: 01596-246092

On Campus Facilities for Placement:

There are no registration charges. Rooms with LCD projector and computer are provided for conducting pre-placement talks. Rooms for aptitude tests, group discussions and interviews are also made available. Accommodation for visiting company executives will be arranged at Institute well-furnished and air conditioned VIP guest house with free lodging & boarding facilities.

Period of Placement:

Students avail campus placement during their last year on campus before completing graduation from RTU, Kota. All the students will be graduating by the end of July every year.

INSTITUTE CAMPUS

The institute has facilities of well-furnished boys' & girls' hostels, separate common rooms and staff quarters. The institute is sprawled in 15 acres of land located in the vicinity of BTTI, CEERI and BITS campus. The campus provides first-rate environment to engineering students to pursue their academic, intellectual, moral and cultural skills.

ALL-ROUND DEVELOPMENT OF STUDENTS

The institute provides all the required facilities for sports and recreation to ensure overall development of every student.

Students can join various clubs existing on the campus for example Music Club, Astronomy Club, Photography Club, Poetry Club, Dance club, Mime Club etc. Large numbers of students also take part in societal development works through various activity groups in campus.

Music centre in the name of 'Sarala Birla Cultural and Creativity Centre' is the nerve centre of all student activities in the campus. A number of literary and social activities take place in the campus throughout the year.

Every year students organize Sports and Technical meet in the name **Quasar**, Cultural meet in the name **Basant**, Seminars, Academic workshops etc.

BKBIET educational system puts an ample opportunities for the development of Soft Skills & Emotional Intelligence. Many courses have mandatory class room presentation and group discussion components which help improve communication skills.
